Summary

Innovative Software Engineer with a proven track record in developing and optimizing technology solutions. Skilled in front-end and back-end development, focusing on creating efficient, scalable applications. Adept at multitasking and recognized for enhancing operational processes and team performance in dynamic environments.

Technical Skills

Frameworks & Programming Languages: JavaScript, React, TypeScript, PHP, HTML, CSS, SASS/LESS, Twig, Next.js, Redux, Node.js, React Native

Tools & Technologies: API Development, WordPress, Firebase, Datadog, Splunk, Snowflake, Raygun, Jira, Shortcut, Tailwind CSS, HUGO

Education Highlights

Fullstack Web Developer Degree, OpenClassrooms (Sep 2017 - Jan 2020)

Focused on full-stack web development, covering both front-end and back-end technologies.

Scientific Baccalaureate, Jean Monnet High School (June 2005)

Specialized in Physics-Chemistry, this program provided a broad foundation in scientific principles, emphasizing practical experimentation and theoretical understanding.

Work Experience

Software Engineer, Mobi (March 2023 - Present)

Led development initiatives for front-end and back-end systems using JavaScript, React, React Native, and PHP. Developed a transformative self-service tool, significantly reducing client rollout times and resource utilization.

Sustaining Engineer, Mobi (March 2022 - March 2023)

Managed API integration and troubleshooting. Played a key role in the design and development of innovative tools, dramatically improving the company's implementation processes.

Bilingual Technical Support Specialist, Mobi (March 2021 - March 2022)

Excelled in resolving complex technical issues, leading to improved client satisfaction and support efficiency.

Bilingual Technical Support Specialist, FISERV (Feb 2020 - March 2021)

Delivered comprehensive technical support, resolving user issues efficiently and enhancing customer

satisfaction.

Web Developer FullStack, Self-employed (Sept 2017 - Feb 2020)

Specialized in the development of responsive and dynamic websites, applying modern web technologies to deliver high-quality solutions.

Tutor, Self-employed (Jan 2015 - Aug 2017)

Provided customized tutoring in French and Mathematics, adapting teaching methods to individual student needs and learning styles.

Teaching Assistant, Collège des Garrigues (Jan 2010 - Sept 2014)

Assisted in lesson preparation and collaborated with teachers to address student challenges. Played a key role in delivering computing lessons, enhancing students' understanding and engagement with the subject.
