Languages: JavaScript, TypeScript, PHP, HTML, CSS
Frameworks & Libraries: React, Node.js, Redux, Next.js, React Native, SASS/LESS, jQuery, Twig, EJS
Tools & Technologies: AI Integration, Prompt Engineering, API Development, WordPress, Firebase, MongoDB, AGILE Methodology, Material UI, Chakra UI, Ant Design, Tailwind CSS, HUGO, Datadog, Splunk, Snowflake, Raygun, Git, GitLab

Work Experience

Software Engineer, Mobi (March 2023 - Present)

- Developed intricate user interfaces and feature-rich applications using React, Redux, and React Native, significantly enhancing user engagement.
- Improved system stability and performance with PHP and JavaScript in back-end development.
- Streamlined workflows and optimized resource use, playing a key role in project evolution and success.

Sustaining Engineer, Mobi (March 2022 - March 2023)

- Developed tools to improve efficiency and resource utilization, significantly enhancing workflow processes.
- Enhanced system functionality and reliability through advanced API integrations.
- Managed database entries and SQL operations, ensuring data integrity and operational efficiency.

Bilingual Technical Support Specialist, Mobi (March 2021 - March 2022)

- Resolved complex technical issues, providing effective client support.
- Investigated logs and API integration issues. Utilized HTML, CSS, and JavaScript for platform customization.

Bilingual Technical Support Specialist, FISERV (Feb 2020 - March 2021)

- Provided comprehensive technical support. Worked on Clover product, fixing Android-based system issues.
- Developed and managed an online customer support platform in French, improving support for French-speaking clients.

Web Developer FullStack, Self-employed (Sept 2017 - Feb 2020)

- Created websites using HTML, JavaScript, PHP, and WordPress. Focused on SEO best practices.
- Delivered tailored web solutions, enhancing user experience and dynamic content.

Teaching Assistant, Collège des Garrigues (Jan 2010 - Sept 2014)

- Assisted in educational preparation and classroom management.
- Delivered computing lessons, enhancing students' technical skills and understanding.
- Taught a relay class for students temporarily excluded or in academic failure, adapting pedagogy for their needs.

Education Highlights

Fullstack Web Developer Degree, OpenClassrooms (Sep 2017 - Jan 2020)
Gained comprehensive knowledge in full-stack web development, delving deep into both front-end and back-end technologies.

Scientific Baccalaureate, Jean Monnet High School (June 2005)
Specialized in Physics-Chemistry, honed analytical and problem-solving abilities, blending theoretical knowledge with practical experimentation.

Soft Skills

- **Continuous Learning:** Committed to enhancing technical and professional skills through ongoing education and practical experiences.
- **Communication:** Effective communicator, adept at articulating complex technical concepts in an understandable manner.
- **Teamwork:** Proven ability to work collaboratively in diverse team settings to achieve project goals.
- **Problem-Solving:** Skilled at quickly identifying and resolving technical issues, leading to efficient and effective solutions.

Languages

- **English:** Full professional proficiency
- **French:** Native proficiency
